BUTTER SHIPPING

use Schmidt Bros. tub—

The business managers of the most successful creameries acknowledge that, chief among the important factors in shipping their butter, are the TUBS in which the butter is shipped.

They know the advantages that follow when full credit is attained by the rules on grading.

They look out for the full five points allowed on "Packages"

That is why creameries that are most profitably marketing their butter ship it in

SCHMIDT BROS. TUBS

They risk no chance of a high score being cut one or more points on "style," by shipping in inferior tubs, They know Schmidt Bros, Tub to be a money making factor for them in establishing a reputation as shippers of first choice butter, and in securing the highest prices the market will pay when shipped.
